

Pescatourism, an operational multi-use

AGLIA

The Atlantic area

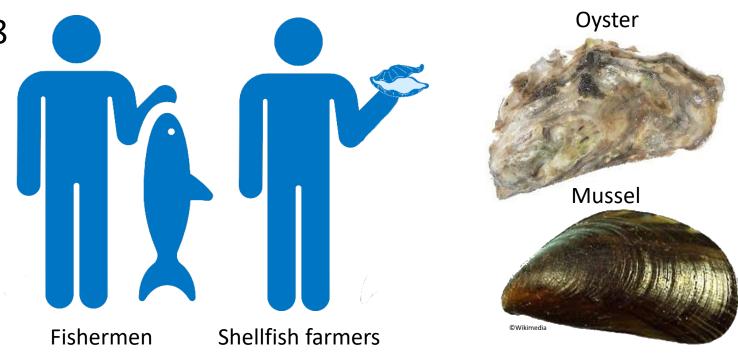

Association du Grand Littoral Atlantique / Big Atlantic Coast Association

- NGO created in 1988
- Composed by

Professional organizations of

Regional collectivities

L'Aglia, trois Régions pour promouvoir la pêche et l'aquaculture

Association du Grand Littoral Atlantique / Big Atlantic Coast Association

Functions

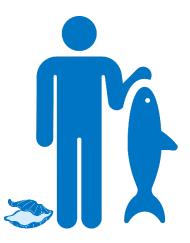

To create and manage **projects &** studies

Activities of diversification

Why diversification?

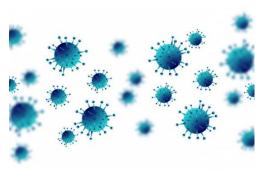

Causes

FISHERIES RESSOURCES INSTABILITY

Water pollution

Illness of (shell)fish

PRICES EVOLUTION

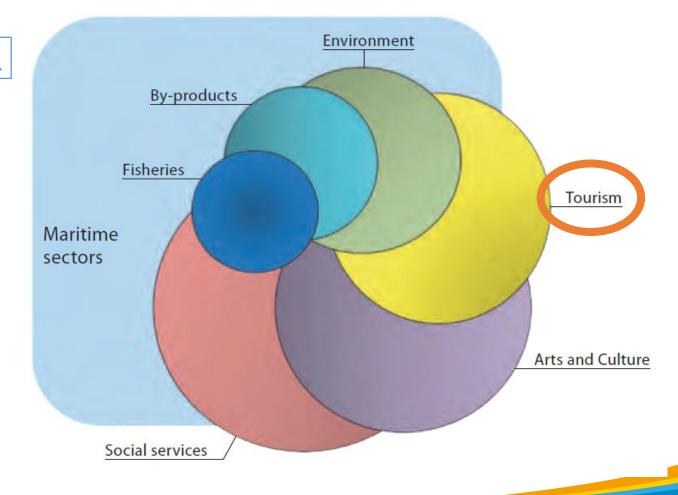

What is diversification?

An extension of the activity of production

• Various ways

For more : <u>FARNET Guide #5</u>

What is diversification?

Tourism

- In order to promote theirs skills and products
- To tourists, local clients, and local shoppers

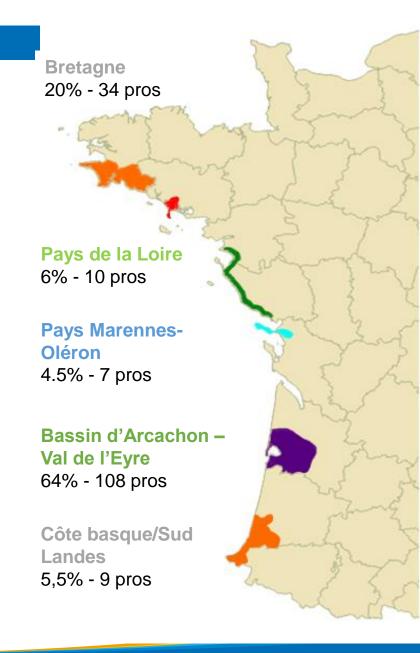

Diversification of maritime activities with tourism

- En 2017
 - ○169 workers
 - ○> 80% shellfish farmers
- Mostly in the South: Bassin d'Arcachon Val d'Eyre
 - 54% of sea workers in France who practice pescatourism were in Bassin d'Arcachon

The pescatourism

Challenges

In Atlantic area in France

- To be authorized & recognized as an activity of diversification
- Implementation of laws
- To be a sustainable activity of diversification

Pescatourism: various development in Europe

To be onboard during fishing activiy:
forbidden

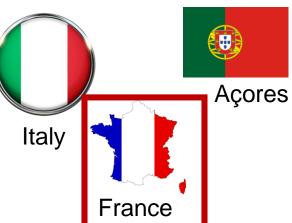

Potential recognized but no specific law > no activity

Experimental project

Implementation
National and/or
regional laws
Various
definition

History of pescatourism in France & AGLIA projects

Before 2005

- TRADITIONAL AND INFORMAL PRACTICE
- No specific legislation

2006

- BAN OF THE PESCATOURISM
- Death of Michelin

2007 - 2011

- Analysis of the legal framework (and perspectives) for touristic activitys
- LOCAL TRIALS IN FRANCE

2011

- **PESCATOURISM** = RECOGNIZED
- National laws: Div 230, 226 et
 227 +Instruction 139 DIRM SA

2006/2007 –EQUAL/DEFIS 2009/2011 –PRESPO

Pescatourism, always linked to maritime activities in France

French legislative definition

- To take passengers on board a professional boat (fishing or shellfish farm activity)
- To discover the job and the environment
- During the daily activity of the professional, at usual workplaces.

X They don't have the right to touch fishing gear or products

The definition is different in Italy > Ittiturismo

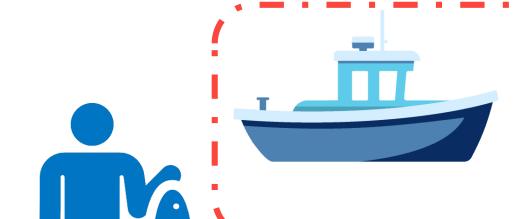

Challenges

In Atlantic area in France

- To be authorized & recognized as an activity of diversification
- Implementation of laws
- To be a sustainable activity of diversification

How to be able to do pescatourism?

At first: To have an **authorization** to have passengers onboard

- To have a boat answering to safety standards
- Local conditions

Each time: to let the **coastguard** know who are the passengers

To send embarkation form to them

The interpretation of laws depends on Vessel Safety Centre

→ Penal responsibility of inspectors is engaged

History of pescatourism in France & AGLIA projects

2011

- **PESCATOURISM** = RECOGNIZED
- National laws : Div <u>230</u>, <u>226</u> et <u>227</u> +Instruction 139 DIRM SA

2011 – now

- VARIOUS DEVELOPMENTS AT LOCAL SCALE
- Challenges
 - Interpretation of laws?
 - Package with other activities linked with tourism (//ittiturismo) ?

2012/2013 – PESCATLANTIQUE 2014/2015 – PESCATLANTIQUE 2

Challenges

In Atlantic area in France

- To be authorized & recognized as an activity of diversification
- Implementation of laws
- To be a sustainable activity of diversification
 - Example of success: Arcachon

Bassin d'Arcachon: History

- Local trial in 2010
- Ecotourism:
 - o a **collective** approach
 - on a territory with a lot of amenities
 - o to value cultural and environmental patrimony
 - o with an offer about maritime activities to tourists

Bassin d'Arcachon: Why the success?

- Territorial strategy
 - Price: 45€ + for discount for kids (-50%) & family
 - Kids with parents > 8 years old
 - Shellfish farmers: tasting included
 - Booking by calling the pro.

European fund

Organizations of maritime activities

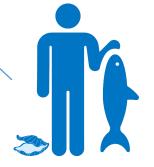

Territorial communities

1 charter to sign

Promotion (Posters, brochures, annual kickoff)

Fishermen or shellfish farmers

VIS MA VIE

D'OSTRÉICULTEUR OU DE PÉCHEUR SUR LE BASSIN

Toute l'année, embarquez le temps d'une marée sur les bateaux des ostréiculteurs ou pêcheurs professionnels. Une manière très originale de voir le Bassin avec ceux qui y travaillent, été comme hiver.

On découvre la culture de l'huitre et la pêche dans le Bassin ou à l'Océan.

ATTENTION, LA MARÉE N'ATTEND PAS!

Départ en fonction des horaires des marées du jour et du port : il peut être à 6h comme à 16h par exemple.

PENSEZ-Y! Nos professionnels vous proposent des bons cadeaux (anniversaires, fête des pères...).

PRÉVOIR UNE TENUE ADAPTÉE

Pour les jours de beau temps : un chapeau et un coupe-vent.

Pour les jours nuageux et venteux : un bon pull et un cire.

Quelque soit la météo, prévoir des bottes ou des chaussures résistantes à l'eau à semelles rigides.

Pour les marées longues (telles que les sorties à l'océan) : prévoyez que la météo peut vite changer en mer.

Le professionnel sera toujours là pour bien vous conseiller!

LISTE DES PROFESSIONNELS À CONTACTER

MARÉE DE PÊCHE PROFESSIONNELLE INTRA BASSIN & OCÉAN

Il ne s'agit pas de pêche à la ligne que seuls les guides professionnels de pêche sont habilités à proposer.

Bassin d'Arcachon : Datas

Evolution of pescatourism at Arcachon Val d'Eyre

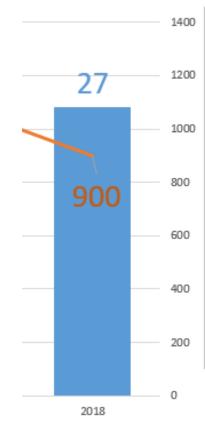

Bassin d'Arcachon: Datas

In 2018:

- Most were shellfish farmers (19 sea workers)
- + 6 pros out of « On Board! »

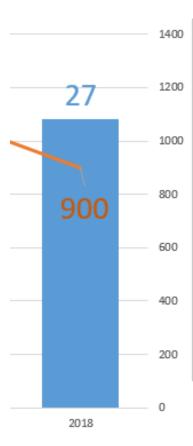

Bassin d'Arcachon : Datas

- Drop in visitors is explained
 - 8 pros haven't done pescatourism.
 - They work on other activities (fishing, tasting...) or they lacked of time (to clean shellfish farms, ...)
 - Many requests were unmet.

For more :
Conclusions for
2018, DLAL
FEAMP BARVAL

Motives of fishermen and shellfish farmers

Pescatourism, a way:

To value their job & unknow products

- More visibility
- Price of their products is justified (painfulness of work)

To have **human contact**

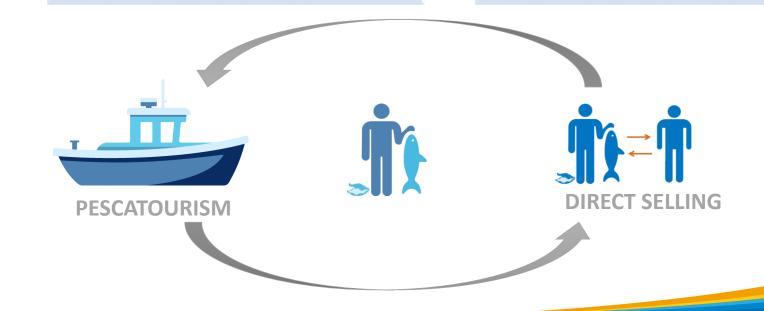

- Alone on a daily basis
- +++ to retain or to find new clients

To have a small suply of income

 Not the 1st motive with pescatourism

Positive effects increased if they practice <u>direct</u> selling

Conclusion

Basic conditions to develop pescatourism

Territories with amenities to value

- Environmental & cultural patrimony
- Strong maritime identity or potential

Collective strategy

- Local collectivities
- Fundings
- Organizations of sea workers

Safety conditions

- Boat answering to safety standards
- Sea conditions (ex. easier inside a bay, near to the coast and usually quiet conditions)

Conclusion

Socio economics effects

Community of sea workers are reinvigorated

- Integrated in territorial life
- A way to make these professions more attractive

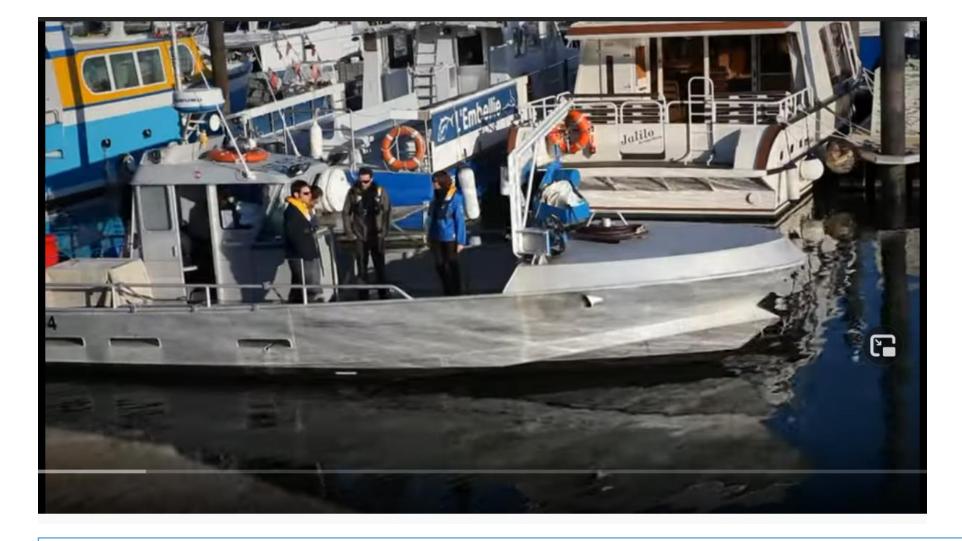

The profit from tourism is linked with **characteristics** of the territory

Anchoring of this economy reinforced

Combined with other touristic activities of diversification, it can help maritime activities in France

Ex. Arcachon Val de l'Eyre :

- Evènement <u>« kick off</u> » ou le <u>point of view from pros</u>
- Reportage
- Reportage shellfish farmers
- Seasonal statement
- <u>Clip</u> v longue <u>v courte</u>
